

WBAR

Utility Billing Made Easy

Tri C Systems utility billing solution is designed to take advantage of the full power of Windows. WBAR runs with Windows 98 SE, Windows 2000 / NT or Windows XP.

What is new in WBAR ?

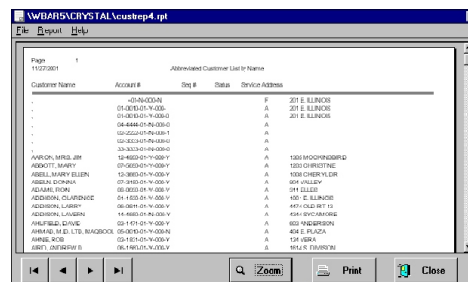

WBAR brings you the expanded power, performance, and options of a full 32 bit data base environment.

Designed for the latest versions of Windows, WBAR has expanded options for creating, exporting, and reporting utility information. Since it is also a multi-media program, it uses graphics and sounds to help make the user's experience more fun.

WBAR Works With Seagate Crystal Reports

Crystal Reports, version 8.5, is a Windows based report generator that works with the data files in WBAR. It allows you to create your own customized reports, letters, forms, and labels. Build graphs and charts. Even publish your reports to the web.

Open a data file, select the fields you want to display, and then drag them into the report design surface.

Draw boxes, add pictures, change fonts, and even add colors to your reports to make them stand out.

Build formulas into your reports to perform simple or complex financial calculations and statistics on the data you select. Download ready to run custom reports from our web site.

Works with DAP hand held meter collection devices.

You can equip WBAR to work with hand held or counter mounted bar code scanners to speed up payment processing.

Bar coding speeds up over-the-counter operations by allowing the account number to be read into the system from the bar code printed on each bill, late notice, label, etc. Saves time and reduces data entry errors.

Locate Accounts 9 Different Ways

Now includes customer and/or property photographs.

WBAR has features that make account look-ups fast by account number, name, service address, meter number, phone number, id number, and more.

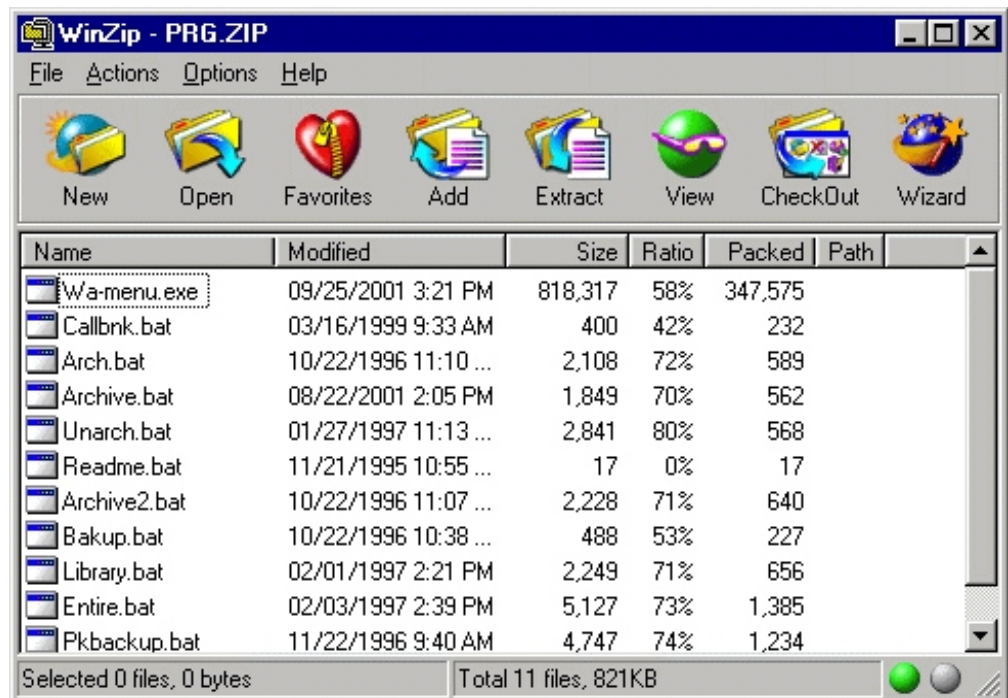

WBAR5 comes with WinZip 8.0

Create fast reliable backups of your critical data with WinZip 8.0.

Backup any number of files or folders on your hard drive and save them to diskette, Zip Disk, Jazz, or CD-ROM.

Print out a report of the files you back up.

Restoring is easy too. Just select the files you want to restore to your hard drive and click Extract.

Process Payments Electronically with WBAR's ACH Module (Optional)

Electronic payment processing is here to stay. It saves time and money and can greatly improve your utility's cash flow. With your customer's bank account information in the system, you can request electronic "checks" to be paid directly from your customer's bank. These electronic debits are collected and then deposited into any checking or savings account you desire. Electronic payment processing is used by America's largest utilities and most state and federal government agencies. It is fast, convenient and secure.

Bill Your Customers by Email

Send email bills to any customer with an email address. You can also notify landlords when their tenants become delinquent.

Upload and Download Crystal Reports

Our new users group sharing features allows districts all over the world to share their customized Crystal reports. Download and use as is or start with a template and modify to your needs.

WBAR is Easy to Learn, Easy to Use

The screenshot displays the WBAR software interface. At the top, the window title is "WBAR6 : [03-0120 UNITED CHURCH, GRACE 415 W LOGAN 03-0120RA0000]". Below the title bar, there are sorting options: "Sort by Acct", "Sort by Name", "Sort by Meter #", "Sort by Street", and "Sort by Walking".

The main interface is divided into several sections:

- Customer Information:** Fields for "415 W LOGAN", "GRACE", "UNITED CHURCH", "C/O STEVE RANN", "TREASURER", "P O BOX 967", "YOURTOWN", "US", "99999-9999", "(999) 999-9999", "email@anyisp.net", "E-Bill" checkbox, "On" and "Off" date pickers, "R-36578404", "BACKYARD EAST PORCH", and "Meter # R-36578404".
- Customer List:** A table with columns: Account #, Last Name, First Name, Service Address, and Old Acct #.
- Account Details:** A vertical list of fields: Acct #, Name, Service Address, Meter #, SS / ID #, Phone Number, Diary, and Print Screen.
- Financial Summary:** "Balance 0.00" and "Deposit -50.00".
- Navigation:** A "Close" button and a set of navigation arrows.

At the bottom of the interface, there are tabs for "Account", "Balance", "Usage", and "Options".

Account #	Last Name	First Name	Service Address	Old Acct #
03-0120	UNITED CHURCH	GRACE	415 W LOGAN	332510
03-0150	BARDOS	BILL	13 S MCKINLEY	068001
03-0180	HORTON	TRACY	15 S MCKINLEY	068020
03-0190	FIELDS	BOBBY	23 S MCKINLEY	
03-0210	FULKERSON	BARBARA	31 S MCKINLEY	
03-0210	CLETCHER	JEAN	31 S MCKINLEY	
03-0240	SMITH	FRED	22 S MCKINLEY	
03-0240	HOUSE	VACANT	22 S MCKINLEY	
03-0300	TAYLOR	CHARLES	327 W POPLAR	056029

WBAR for Windows Lets You Preview Reports Before You Print

Print only selected pages or export your report to Excel, Microsoft Word or disk file. You can email reports too ! Comes with 30 commonly used reports. With the optional Crystal Reports generator, you can build your own reports. Ready to use special purpose reports and templates are also available on our web site.

Build your own rate tables to handle almost any billing situation.

WBAR allows up to 99 individual rate tables for each billable service.

Rate tables for water and sewer include a minimum and six increments. Also allows temporary or permanent customer surcharges to be added after calculation.

Sewer Rate Tables

Save as New Table Last Change 02/05/2003

With WBAR you can capture some or all of your customer's security deposit and apply it any way you like. Refunds can be processed through your checking account or print checks using standard 3 per page laser checks.

Choose between low cost dot matrix or high quality laser bill forms

Print high resolution laser bills complete with bar coded address line. WBAR can print the POSTNET bar code you need to get the post office's lowest automated billing postage rate. You can also print a bar code that works with a counter mounted wedge scanner to speed up payment processing.

WBAR allows you to add, edit, delete and lookup customer information anytime. Locate accounts by account number, name, service address, meter number, phone number or by scrolling through the customer sorted list.

Entering meter readings is easy either through the keyboard or using a remote hand held data collection device. You can also edit or delete meter readings and print out a report showing each customer's readings and usage.

You can post cash through the keyboard, electronically from ACH payments, or use bar coded bills with a scanner to speed up cash collections.

WBAR for Windows tracks all income in separate fund totals and prints a series of cash management reports so that you'll always be on top of your accounting.

Help is a click away with our built-in online help library.

Graphics and examples demonstrate how to process various types of transactions and locate information.

You can read documents with your browser or print them off for reading anytime.
